Live

CRITICAL

Journey Outcome

NPS erosion concentrated in HSHF cardholders

NPS monitor shows HSHF dropping from 48 to 20 over 12 weeks while LSLF remains in single digits, signaling urgent retention risk in high-value cohorts.

HSHF down 28 points

↗ +12.5% dissatisfaction trend

ALERT

Repeat Contact Driver

Dispute follow-up + cashback gaps dominate repeat demand

The highest-volume failure intents are Dispute follow-up and Cashback not credited, with multi-segment spread and elevated process error levels.

4,719 combined cases

AI INSIGHT

Chargeback status ambiguity and delayed evidence confirmation are driving repeated dispute follow-up calls.

RECOMMENDATION

Auto-push dispute stage updates in app/SMS and provide same-screen agent visibility of chargeback timeline.
